Attachment 4.19A Page 28

- XXVI. In accordance with state and federal laws regarding reimbursement of inpatient and outpatient hospital services and the implementation of a Medicaid managed care system, reimbursement for state fiscal year 1996 shall be determined as follows:
  - A. State fiscal Year 1996 Reimbursement for Inpatient and Outpatient Hospital Services

Claims for inpatient and outpatient hospital services for Missouri Medicaid eligible recipients, not enrolled in a Medicaid managed care plan such as MC+, shall continue to be reimbursed in accordance with current regulations and claims processing procedures.

Inpatient per diem rates and outpatient reimbursement percentages in effect as of June 30, 1995, shall remain in effect for state fiscal year 1996 except for hospitals which initially qualify July 1, 1995, as 1<sup>st</sup> or 2<sup>nd</sup> Tier Disproportionate Share or hospitals which previously qualified as 1<sup>st</sup> or 2<sup>nd</sup> tier and failed to requalify July 1, 1995. Per diem rates shall be adjusted to a disproportionate share or general plan level as appropriate.

A Medicaid Add-On payment based on 100% of the allocated Medicaid Shortfall and 95% of the DSH Uninsured shall be prorated over SFY 96. Hospitals which contribute through a plan approved by the Director of Health to support the State's Poison Control Center and the Primary Care Resource Initiative for Missouri (PRIMO) shall receive a Medicaid Add-On payment based on 100% of the allocated Medicaid Shortfall and 96% of the DSH Uninsured. MMCP and other incentive payments paid in accordance with sections (19) through (24) of 13 CSR 70-15.010 shall be considered in computing the pro rate share of Medicaid Add-On and DSH Uninsured payments due for the period August 9, 1995 through December 7, 1995.

Hospitals which qualify as 1<sup>st</sup> tier 10% Add-On DSH shall not receive the Medicaid Add-On payment, but shall continue to receive the UCACI and Safety Net payment described in sections (16) and (18).

## B. Medicaid Add-Ons

Medicaid Add-Ons for Shortfall and Uninsured are based on the estimated inpatient and outpatient cost for SFY 96 less the estimated per diem and outpatient reimbursement for SFY 96.

State Plan TN# <u>95-48</u> Supersedes TN# <u>95-43</u> Effective Date 12-08-1995 Approval Date 28 2001 year is the third prior fiscal year (i.e., The base year for SFY 96 is the FY 93 cost report).

The estimated per diem reimbursement for SFY 96 is based on the current per diem rate multiplied by the inpatient days, within benefit limitations, estimated to be paid for SFY 96. The estimated outpatient reimbursement is based on payment at 90% of base year cost trended thru SFY 96.

An adjustment to recognize the FRA assessment not included in the desk reviewed cost per day is also included. The FRA assessment attributable to Medicaid and Uninsured is determined by multiplying the base year Medicaid and Uninsured days by the SFY 96 FRA assessment rate.

An adjustment shall also be determined for hospitals which operated a Poison Control center during the base year and which continues to operate a Poison Control Center in a Medicaid managed care region. The Add-On adjustment shall reimburse the hospital for the prorated Medicaid managed care cost in accordance with the allocation formula described in the Allocation of Medicaid Add-Ons section.

## C. Allocation of Medicaid Add-Ons

Medicaid Add-Ons determined for Medicaid Shortfall and Medicaid Uninsured shall be allocated based on the estimated effect of implementation of a Medicaid managed care system (MC+) in accordance with this section. Medicaid per diem and outpatient payments, which are paid on a claim specific basis do not require an allocation.

Medicaid Add-Ons shall be multiplied by a managed care allocation factor which incorporates the estimated percentage of the hospitals Medicaid population which will remain outside a managed care system and the estimated implementation date for a managed care system. For example: If a hospital has 1) an annual Add-On payment of \$100,000, 2) 40% of their Medicaid days are related to Medicaid recipients not eligible for Medicaid managed care, and 3) the projected implementation date for managed care is 10/1/95; the prorated Medicaid Add-On is \$55,000 [(\$100,000\*25%)+((\$100,000\*75%\*40%)].

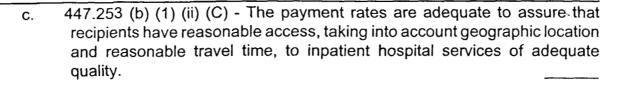

The Medicaid Add-on shall include an adjustment to recognize the FRA assessment for the estimated SFY 96 Medicaid inpatient days allocated due to the implementation of MC+.

State Plan TN# 95-48 Effective Date 12-8-95
Supersedes TN# 95-43 Approval Date AUG 28 2001
